

CASTILLO DE JUMILLA MONASTRELL ORGANICO

DOP Jumilla

Type of wine: Red

Grape variety: 100% Monastrell

Alcohol: 14.5% Vol.

Although all our Monastrell grape crops come from organic farming, avoiding the use of herbicides, insecticides and other chemical products (which undoubtedly affects the final result of our wines), Castillo de Jumilla Monastrell Organic has as an added value an elaboration with native yeasts and a physical treatment of 100% organic wine, that have earned it its official recognition as an organic wine by the Council of Organic Agriculture of the Region of Murcia. It is a balanced wine, with sweet and fruity tannins, with body and amplitude in the mouth and a very harmonious persistent finish. Delicious together with varied tables of cheeses, pates and sausage meats, Iberian, varied tapas, grilled vegetables, risottos and pastas, or roasted or grilled meats.
