

# EMINA SAUVIGNON BLANC

D.O. RUEDA

## The Wine

Sauvignon Blanc, with its unmistakable varietal characteristics. Very pale straw-yellow but steel-coloured at the rim. Tropical scents of pineapple and green mango in the bouquet, boxwood, herbaceous tones with a subtle base of citrus and red pepper. Excellent balance in the mouth between volume, body and acidity, giving way to a vibrant and agreeable bitterness at the finish that provides excellent length.

Format 750ml

## Origin of the wine

|                               |                                         |
|-------------------------------|-----------------------------------------|
| Name of the vineyard          | Finca La Buitrera y Finca La Bodeguilla |
| District                      | Pozaldez y Valdestillas                 |
| Surface area                  | 7.58 ha y 5.57 ha                       |
| Formation                     | trellised vineyard                      |
| Soil texture                  | franco                                  |
| Tipo de Elaboration           | tradicional for whites                  |
| Height                        | 790/730                                 |
| Production/ha                 | 5.500 kg/ha                             |
| Orientation of the trellising | mixed                                   |
| Incline                       | 1-10%                                   |
| Years planted                 | 2008 y 2006                             |

## Harvest and aging

|                  |                                            |
|------------------|--------------------------------------------|
| Variety          | 100% Sauvignon Blanc                       |
| Harvest          | August                                     |
| First Harvest    | 2005                                       |
| Bottles produced | 10.000                                     |
| Fermentation     | 10-14 days in stainless steel tanks (16°C) |
| Aging            | No                                         |

## Analytical data

|                |          |
|----------------|----------|
| Alcohol        | 13 %     |
| Residual sugar | 2,31 g/l |
| Acidity        | 6 g/l    |
| Dry Extract    | 19,3 g/l |

## Recommendations

|             |                                            |
|-------------|--------------------------------------------|
| Storage     | Keep in a cool, dry place. Avoid sunlight. |
| Temperature | Drink at 6-8°C                             |
